KY-P4.1
R-PLANK STRIP SYSTEM
R型条扣天花

产品介绍 INTRODUCTION

The KEYI R-plank strip ceiling system is hydraulically formed by rollers, with clear lines and excellent scratch resistance. Compared with the P4.2 strip ceiling, the main difference is the installation accessories system. Most architectural designers use this system to adjust the height of the space and can be used to hide the exposed wires on the ceiling.

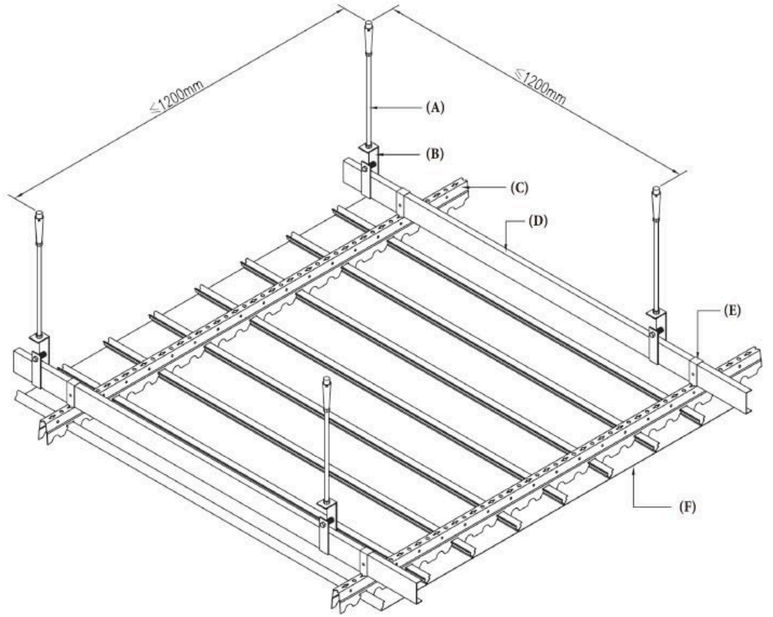

柯一R型条扣天花吊顶系统，R型条扣采用滚轮液压成型，条线清晰，防刮花性能卓越。与P4.2条扣天花对比，主要是安装配件系统的区别。为密封性天花系统，建筑设计师常用于调整空间的高度以及可用于隐藏裸露在吊顶的电线等，从而美化空间。
